her well-being is linked to the well-being of the entire colony, the ability to find her among the

residents of the hive is an essential beekeeping skill. In QueenSpotting, experienced beekeeper

and professional "swarm catcher" Hilary Kearney challenges readers to "spot the queen" with 48 fold-out queenspotting puzzles — vivid up-close photos of the queen hidden among her many

subjects. QueenSpotting celebrates the unique, fascinating life of the queen bee chronicles of

royal hive happenings such as The Virgin Death Match, The Nuptial Flight — when the queen

mates with a cloud of male drones high in the air — and the dramatic Exodus of the Swarm from

the hive. Readers will thrill at Kearney's adventures in capturing these swarms from the strange

places they settle, including a Jet Ski, a couch, a speed boat, and an owl's nesting box.
