"Sticks and Stones May Break My Bones but Words Can Hurt Forever" - Trish Dennison 2010-11-29 Every adult I have ever worked with has identified a broken, hurt or disillusioned child memory within; The Children in my Chair. Susie had an intense phobia, Lucy was a compulsive over eater, Valerie believed women are subservient and had no voice, Noreen grew up with a lack mentality and was always broke, Erin never felt good enough, Julie believed she was unlovable, Doug was angry all the time and Katie distrusted her feelings and hide them inside. How did this happen? We are living in a world full of people living with shame, guilt, self blame, unhappiness, unworthiness, fear and obligation that was originally ‘put upon them’ unconsciously by their mentors and role models in early life. How we, as innocent children, learn about and what we come to believe about ourselves and about life are the teachings of this book. We've been conditioned! Conditioning begins with words we hear, think and speak. This book is a simple call to presence for all because everyone was once a child themselves. Take this opportunity to; recognize your own conditioning; break the chains of the past; learn what it is to be present; and learn how to consciously use words that empower, inspire, support and encourage both yourself and the children in your life now.

**More Than Words Can Say** - Saskia Shakin 2008-09 What makes a speaker riveting? What makes an audience come alive? This book answers these questions by looking beyond the mechanics of speaking; by delving into the mysteries of charisma, and into the source of
our own inspiration. It reveals the two most important secrets to public speaking. It reveals that how we see the world is how the world sees us. And if we wish to sparkle at the podium, we must be true to ourselves, for only then can we be true in the spotlight.

**Words Can Change Your Brain** - Andrew Newberg 2013-07-30 In our default state, our brains constantly get in the way of effective communication. They are lazy, angry, immature, and distracted. They can make a difficult conversation impossible. But Andrew Newberg, M.D., and Mark Waldman have discovered a powerful strategy called Compassionate Communication that allows two brains to work together as one. Using brainscans as well as data collected from workshops given to MBA students at Loyola Marymount University, and clinical data from both couples in therapy and organizations helping caregivers cope with patient suffering, Newberg and Waldman have seen that Compassionate Communication can reposition a difficult conversation to lead to a satisfying conclusion. Whether you are negotiating with your boss or your spouse, the brain works the same way and responds to the same cues. The truth, though, is that you don't have to understand how Compassionate Communication works. You just have to do it. Some of the simple and effective takeaways in this book include: • Make sure you are relaxed; yawning several times before (not during) the meeting will do the trick • Never speak for more than 20-30 seconds at a time. After that they other person's window of attention closes. • Use positive speech; you will need at least three positives to overcome the effect of every negative used • Speak slowly; pause between words. This is critical, but really hard to do. • Respond to the other person; do not shift the conversation. • Remember that the brain can only hold onto about four ideas at one time Highly effective across a wide range of settings, Compassionate Communication is an excellent tool for conflict resolution but also for simply getting your point across or delivering difficult news.

**Words Can Explain** - Sha Rene’ 2007-12-01 There are times when you just want to talk aloud or just blurt out whatever comes to mind. Well you can. Sha Rene’ speaks her mind and uses her words to get across a message. Most people can’t just sit there and listen to your opinions or your outlook on life or how you feel about your day or how things went in your past relationships with men or say the things back to the people who hurt you or laugh at all the funny stuff people did. This book does exactly that. Like, "Ntozake Shange's poetry for stage, "For Colored Girls," Sha writes these intense words from her African American experience, made for you to listen as a dramatic piece of Chuma Okoli on the canvas. It’s like being a fly on the wall. In music there is the opportunity to ignore the words to a song and listen along to a beat of the drum or the string of the violin or the tap of the piano, but with spoken words, u can git deep! Lot's of slang in this book. She raps like that! This book is "the spoken word" a form of poetry to song, a form of song in poetry and sad, amazingly honest and also funny. There are parts of this book that allow you to go with the writer through a given situation and in a colorful way let you bend the rules with her, let you laugh with her and cry with her and sometimes scream with her. Rap with her! Words with a beat and beating up the words and then there is silence. This book although written is made for performance, made for the stage and an open mic. Made for one who wants to listen to what is right and sometimes wrong. "Words Can Explain": How you feel when you get up in the morning. How you feel when you are in mourning, how you feel when your work is done, How it feels to be Black and a woman and single and alone and strong and a child and also grown, How feel when you are the only one holding it down! So listen up my brothas and sistas. Listen up!
