The Communicative Value Of Intonation In English

Communication - Wikipedia
Communication (from Latin communicare, meaning "to share" or "to be in relation with") is "an apparent answer to the painful divisions between self and other, private and public, and inner thought and outer world." As this definition indicates, communication is difficult to define in a consistent manner, because it is commonly used to refer to a wide range of different behaviors ...

2. Language. 2.1 Definition and features of language

different phrases and intonation than a pauper, for instance, and the hip-hop Language is a set of conventional communicative signals used by humans for communication in a community. Language in this sense is a sound value; i.e., that h is aitch rather than huh.
