The Trickster (Wolfgang Tillmans) (b. 1968) is one of the most significant European artists at work today. His informal and apparently spontaneous photographs of gay pride activists, eco-warriors, and clubbers hint at his early interest in optical and临时 exhibition of the people and places he has visited. Tillmans's work often explores the boundaries of form and function, challenging the viewer to question the relationship between art and life. This exhibit showcases a selection of Tillmans's photographs, including images of his travels in Japan, which offer a unique perspective on the country's culture and landscape.

Thought-provoking and lyrical, The Notebook records the last year in the life of José Saramago. In the eve of the 2008 US presidential election, he evokes life in his beloved city of Lisbon, revisits conversations with friends, and meditates on his favorite authors. Precise observations and moments of arresting significance are rendered with panoramic detail, and together demonstrate an acute understanding of our times. Characteristically critical and uncompromising, Saramago dissects the financial crisis, explores Brazil’s punishment of Gaza, and reflects on the rise of Barack Obama. The Notebook is a unique journey into the personal and political world of one of the greatest writers of our time.

A Personal Matter
- Kenzaburo Oe 2011-05-16
From the Nobel Prize-winning author: “One of the great short novels of the 20th century” (Jonathan Franzen, The Wall Street Journal). Internationally acclaimed as one of the world’s most influential writers, Kenzaburō Ōe brings to the fore the post-WWII rape and secret of a decaying society in the “deadly black comedy” (The Japan Times). This is an emotional twenty-seven-year-old intellectual hovering on to a failing marriage with wholeness. He dreams of going to Africa where the sky opens with possibilities. Then, as though swallowed by a monstrous boulder, Bird’s Organic harrow are shorn when his wife gives birth to what he calls their “monster baby.” Now, Bird is left with one question. How can he and his wife spend the rest of their lives with this damaged thing clinging to their backs? He smiling, dying, and suddenly a desire as if it is, Bird has an answer. Not needed. Not just yet. Not before Bird flies on a banner of indifference (and astonishing impatience), harf liquor, self-delusion, and most terrifying of all—self-discovery. “[O] forgotten just how crazy it is . . . it feels so much like life to me . . . it tells me that Ōe is onto something correct. People don’t want to deal with reality.” —Jonathan Franzen, The Wall Street Journal

The Miner
- Natsume Soseki 2015-09-07
The Miner is the most daringly experimental and least well-known novel of the great Meiji writer Natsume Soseki. An absurdist tale about the indeterminate nature of human personality, written in 1908, it was in many ways a precursor to the work of Joyce and Beckett. The result is a novel that is both absurd and comical, and a true modernist classic.

He writes of seasons changing, the smell of the rain, the brightness of the moon and the beauty of the waterfall, through which he sensed the mysteries of the universe. These writings not only chronicle Basho’s travels, but they also capture the vision of eternity in the transient world around him. Translated with an Introduction by Nobuyuki Yuasa
