Revisionist Histories Marnie Hughes-Warrington 2013-07-18 Revision and revisionism are generally seen as standard parts of historical practice, yet they are underexplored within the growing literature on historiography. In this accessibly written volume, Marnie Hughes-Warrington discusses this paucity of work on revision in history theory and raises ethical questions about linear models and spatial metaphors that have been used to explain it. Revisionist Histories emphasises the role of the authors and audiences of histories alike as the writers and rewriters of history. Through study of digital environments, graphic novels and reader annotated texts, this book shows that the ‘sides’ of history cannot be disentangled from one another, and that they are subject to flux and even destruction over time. Incorporating diverse and controversial case studies, including the French Revolution, Holocaust Denial and European settlers’ contact with Native Americans and Indigenous Australians, Revisionist Histories offers both a detailed account of the development of revisionism and a new, more spatial vision of historiography. An essential text for students of historiography.

Samuel Beckett and trauma Mariko Hori Tanaka 2018-07-06 Samuel Beckett and trauma is the first book that specifically addresses the question of trauma in Beckett, taking into account the recent rise of...
trauma studies in literature. Beckett is an author whose works are strongly related to the psychological and historical trauma of our age. His works not only explore the multifarious aspects of trauma but also radically challenge our conception of trauma itself by the unique syntax of language, aesthetics of fragmentation, bodily malfunctions and the creation of void. Instead of simply applying current trauma theories to Beckett, this book provides new perspectives that will expand and alter them by employing other theoretical frameworks in literature, theatre, art, philosophy and psychoanalysis. It will inspire anybody interested in literature and trauma, including specialists and students working on twentieth-century world literature, comparative studies, trauma studies and theatre /art.

Trauma, Postmodernism and the Aftermath of World War II P. Crosthwaite 2009-01-29 The first sustained study of the relationship between Anglo-American postmodernist fiction and the Second World War, Crosthwaite demonstrates that postmodernism has not abandoned history but has rather reformulated it in terms of trauma that is traceable, time and again, to the catastrophes of the 1940s.

Postmodern Love in the Contemporary Jewish Imagination Efraim Sicher 2021-03-18 Offering a radical critique of contemporary Israeli and diaspora fiction by major writers of the generation after Amos Oz and Philip Roth, this book asks searching questions about identity formation in Jewish spaces in the twenty-first century and posits global, transnational identities instead of the bipolar Israel/diaspora model. The chapters put into conversation major authors such as Jonathan Safran Foer, Nicole Krauss, Michael Chabon, and Nathan Englander with their Israeli counterparts Zeruya Shalev, Eshkol Nevo, and Etgar Keret and shows that they share common themes and concerns. Read through a postmodern lens, their preoccupation with failed marriage and failed ideals brings to the fore the crises of home, nation, historical destiny, and collective memory in contemporary secular Jewish culture. At times provocative, at others iconoclastic, this innovative study must be read by anyone concerned with Jewish culture and identity today, whether scholars, students, or the general reader.

Holocaust Consciousness in Contemporary Britain Andy Pearce 2014-06-05 The Holocaust is a pervasive presence in British culture and society. Schools have been legally required to deliver Holocaust education, the government helps to fund student visits to Auschwitz, the Imperial War Museum's permanent Holocaust Exhibition has attracted millions of visitors, and Britain has an annually commemorated Holocaust Memorial Day. What has prompted this development, how has it unfolded, and why has it happened now? How does it relate to Britain's post-war history, its contemporary concerns, and the wider "globalisation" of Holocaust memory? What are the multiple shapes that British Holocaust consciousness assumes and the consequences of their rapid emergence? Why have the so-called "lessons" of the Holocaust enjoyed such popularity in Britain? Through analysis of changing engagements with the Holocaust in political, cultural and memorial landscapes over the past generation, this book addresses these questions, demonstrating the complexities of Holocaust consciousness and reflecting on the contrasting ways that history is used in Britain today.

A House Built on Sand Noretta Koertge 1998-08-27 Cultural critics say that "science is politics by other means," arguing that the results of scientific inquiry are profoundly shaped by the ideological agendas of powerful elites. They base their claims on historical case studies purporting to show the systematic intrusion of sexist, racist, capitalist, colonialist and/or professional interests into the very content of science. Physicist Alan Sokal recently poked fun at these claims by foisting a sly parody of the genre on the unwitting editors of the cultural studies journal Social Text touching off a still unabated torrent of editorials, articles, and heated classroom and Internet discussion. This hard-hitting collection picks up where Sokal left off. The essayists offer crisp and detailed critiques of case studies offered by the cultural critics as evidence that scientific results tell us more about social context than they do about the natural world. Pulling no punches, they identify numerous crude factual blunders (e.g. that Newton never performed any experiments) and egregious errors of emission, such as the attempt to
explain the slow development of fluid dynamics solely in terms of gender bias. Where there are positive aspects of a flawed account, or something to be learned from it, they do not hesitate to say so. Their target is shoddy scholarship. Comprising new essays by distinguished scholars of history, philosophy, and science (including Sokal himself), this book raises a lively debate to a new level of seriousness.

**Writing the Holocaust** Zoë Vania Waxman 2008-06-26 Arguing against the prevailing view that Holocaust survivors (encouraged by a new and flourishing culture of 'witnessing') have come forward only recently to tell their stories, Writing the Holocaust examines the full history of Holocaust testimony, from the first chroniclers confined to Nazi-enforced ghettos to today's survivors writing as part of collective memory. Zoë Waxman shows how the conditions and motivations for bearing witness changed immeasurably. She reveals the multiplicity of Holocaust experiences, the historically contingent nature of victims' responses, and the extent to which their identities - secular or religious, male or female, East or West European - affected not only what they observed but also how they have written about their experiences. In particular, she demonstrates that what survivors remember is substantially determined by the context in which they are remembering.

**The Holocaust Novel** Efraim Sicher 2013-10-31 The first comprehensive study of Holocaust literature as a major postwar literary genre, The Holocaust Novel provides an ideal student guide to the powerful and moving works written in response to this historical tragedy. This student-friendly volume answers a dire need for readers to understand a genre in which boundaries and often blurred between history, fiction, autobiography, and memoir. Other essential features for students here include an annotated bibliography, chronology, and further reading list. Major texts discussed include such widely taught works as Night, Maus, The Shawl, Schindler's List, Sophie's Choice, White Noise, and Time's Arrow.

**The Memorial Ethics of Libeskind's Berlin Jewish Museum** Arleen Ionescu 2017-02-20 This book is a detailed critical study of Libeskind's Berlin Jewish Museum in its historical, architectural and philosophical context. Emphasizing how the Holocaust changed our perception of history, memory, witnessing and representation, it develops the notion of 'memorial ethics' to explore the Museum's difference from more conventional post-World War Two commemorative sites. The main focus is on the Museum as an experience of the materiality of trauma which engages the visitor in a performative duty to remember. Arleen Ionescu builds on Levinas's idea of 'ethics as optics' to show how Libeskind's Museum becomes a testimony to the unpresentable Other. Ionescu also extends the Museum's experiential dimension by proposing her own subjective walk through Libeskind's space reimagined as a 'literary museum'. Featuring reflections on texts by Beckett, Celan, Derrida, Kafka, Blanchot, Wiesel and Selma Meerbaum-Eisinger (Celan's cousin), this virtual tour concludes with a brief account of Libeskind's analogous 'healing project' for Ground Zero.

**Anglo-Jewish Women Writing the Holocaust** P. Lassner 2008-08-20 In its analysis of Anglo-Jewish women writing the Holocaust, this book highlights the necessity of their inclusion in the evolving canon of modern British literature, by showing how these writers complicate theories of trauma and memory by using fantasy and the Gothic as a response to silence.

**Humor, Resistance, and Jewish Cultural Persistence in the Book of Revelation** Sarah Emanuel 2020-01-09 Empire-critical and postcolonial readings of Revelation are now commonplace, but scholars have not yet put these views into conversation with Jewish trauma and cultural survival strategies. In this book, Sarah Emanuel positions Revelation within its ancient Jewish context. Proposing a new reading of Revelation, she demonstrates how the text’s author, a first century CE Jewish Christ-follower, used humor as a means of resisting Roman power. Emanuel uses multiple critical lenses, including humor, trauma, and postcolonial theory, together with historical-critical methods. These approaches enable a deeper understanding of the Jewishness of the early Christ-centered movement, and how Jews in antiquity related to their cultural and religious identity. Emanuel’s volume offers new insights and fills a gap in contemporary scholarship on Revelation and biblical
The Broken Voice Robert Eaglestone 2017-06-08 'Which writer today is not a writer of the Holocaust?' asked the late Imre Kertész, Hungarian survivor and novelist, in his Nobel acceptance speech: 'one does not have to choose the Holocaust as one's subject to detect the broken voice that has dominated modern European art for decades'. Robert Eaglestone attends to this broken voice in literature in order to explore the meaning of the Holocaust in the contemporary world, arguing, again following Kertész, that the Holocaust will 'remain through culture, which is really the vessel of memory'. Drawing on the thought of Hannah Arendt, Eaglestone identifies and develops five concepts—the public secret, evil, stasis, disorientalism, and kitsch—in a range of texts by significant writers (including Kazuo Ishiguro, Jonathan Littell, Imre Kertész, W. G. Sebald, and Joseph Conrad) as well as in work by victims and perpetrators of the Holocaust and of atrocities in Africa. He explores the interweaving of complicity, responsibility, temporality, and the often problematic powers of narrative which make up some part of the legacy of the Holocaust.

Holocaust Impiety in Jewish American Literature Joost Krijnen 2016-05-09 This book is concerned with the “impious” Holocaust fictions of four contemporary Jewish American novelists. It argues that their work should not be seen as insensitive, but rather as explorations of various forms of renewal.

The Holocaust and the Postmodern Robert Eaglestone 2004-12-09 Robert Eaglestone argues that postmodernism is a response to the Holocaust. He offers a range of new perspectives, including new ways of looking at testimony and at recent Holocaust fiction; explores controversies in Holocaust history; looks at the importance of the Holocaust for recent philosophy; and asks what the Holocaust means for reason, ethics, and for being human.

The Young Victims of the Nazi Regime Simone Gigliotti 2016-05-05 During the Nazi regime many children and young people in Europe found their lives uprooted by Nazi policies, resulting in their relocation around the globe. The Young Victims of the Nazi Regime represents the diversity of their experiences, covering a range of non-European perspectives on the Second World War and aspects of memory. This book is unique in that it places the experiences of children and youth in a transnational context, shifting the conversation of displacement and refuge to countries that have remained under-examined in a comparative context. Featuring essays from an international range of experts, this book analyses the key themes in three sections: the migration of children to countries including England, Canada, Australia, New Zealand, Kenya, and Brazil; the experiences of young people who remained in Nazi Europe and became victims of war, displacement and deportation; and finally the challenges of rebuilding lives and representing traumas in the aftermath of war. In its comparisons between Jewish and non-Jewish experiences and how these intersected and diverged, it revisits debates about cultural genocide through the separation of families and communities, as well as contributing new perspectives on forced labour, families and the Holocaust, and Germans as war victims.

Philosophy en noir Miroslav Petříček 2019-11-01 Thought necessarily
reflects the times. Following the tragedy of the Holocaust, this fact became ever more clear. And it may be the reason postwar philosophical texts are so difficult to understand, since they confront incomprehensibly traumatic experiences. In this first English-language translation of any of his books, Miroslav Petříček — one of the most influential and erudite Czech philosophers, and a student of Jan Patočka — argues that to exist in the second half of the twentieth century and beyond, Western philosophy has had to rewrite its tradition and its discourse, radically transforming itself. Should philosophy be capable of bearing witness to the time, Petříček contends, this metamorphosis in philosophy is necessary. Offering an original Central European perspective on postwar philosophical discourse that reflects upon the historical underpinnings of pop culture phenomena and complex philosophical schools — including Adorno, Agamben, Benjamin, Derrida, Husserl, Kracauer, and many others — Philosophy en noir is a record of this transformation.

**How to Write About the Holocaust**

Theodor Pelekanidis 2022-05-06

How to Write About the Holocaust is a contribution to ongoing debates in historiography and Holocaust studies. More specifically, it combines the theoretical framework that has developed in historiography in the last half a century with the demands of Holocaust representation. The first part of the book analyzes the newest trends in theory of history, focusing especially on postmodernism, starting from the works of the American historian and theorist Hayden White and tracing the genealogy of the postmodern influence in history both from an epistemological and from a political perspective. The second part continues by incorporating these theoretical developments into specific written examples on the Holocaust. By analyzing major works about it, including Saul Friedländer’s and Dan Stone’s histories of the Holocaust, the book attempts to answer questions like: what is the most appropriate way to write about the Holocaust and what can theory teach us about the practice of history? To conclude, the volume explores the connection between history and literature and asks if the distinction between fact and fiction has become outdated.

**The Holocaust and the Postmodern**

Robert Eaglestone 2004-12-09

Robert Eaglestone argues that postmodernism, especially understood in the light of the work of Emmanuel Levinas and Jacques Derrida, is a response to the Holocaust. This way of thinking offers new perspectives on Holocaust testimony, literature, historiography, and post-Holocaust philosophy. While postmodernism is often derided for being either playful and superficial or obscure and elitist, Eaglestone argues and demonstrates its commitment both to the past and to ethics. Dealing with Holocaust testimony, including the work of Primo Levi and Eli Wiesel, with the memoirs of ‘second generation’ survivors and with recent Holocaust literature, including Anne Michael’s Fugitive Pieces, Jonathan Safran Foer’s Everything is Illuminated and the false memoir of Benjamin Wilkomirski, The Holocaust and the Postmodern proposes a new way of reading both Holocaust testimony and Holocaust fiction. Through an exploration of Holocaust historiography, the book offers a new approach to debates over truth and memory. Eaglestone argues for the central importance of the Holocaust in understanding the work of Emmanuel Levinas and Jacques Derrida, and goes on to explore what the Holocaust means for rationality, ethics, and for the idea of what it is to be human. Weaving together theory and practice, testimony, literature, history, philosophy, and Holocaust studies, this interdisciplinary book is the first to explore in detail the significance of the Holocaust for postmodernism, and the significance of postmodernism for understanding the Holocaust.

**Ethical Criticism** Eaglestone Robert Eaglestone 2019-07-29 What is the relationship between literary criticism and ethics? Does criticism have an ethical task? How can criticism be ethical after literary theory? Ethical Criticism seeks to answer these questions by examining the historical development of the ethics of criticism and the vigorous contemporary backlash against what is known as 'theory'. The book appraises current arguments about the ethics of criticism and, finding them wanting, turns to the philosophy of Emmanuel Levinas. Described as 'the greatest moral philosopher of the twentieth century', Levinas' thought has had a profound influence on a number of significant contemporary thinkers. By paying close attention to his major writings, Robert Eaglestone argues cogently and persuasively for a new understanding of the ethical task of criticism and theory.

**Remembering the Holocaust** Esthier Jilovsky 2015-08-27 An intriguing analysis of how place constructs memory and how memory constructs place, Remembering the Holocaust shows how visiting sites such as Auschwitz shapes the transfer of Holocaust memory from one generation to the next. Through the discussion of a range of memoirs and novels, including Landscapes of Memory by Ruth Kluger, Too Many Men by Lily Brett, The War After by Anne Karpf, and Everything is Illuminated by Jonathan Safran Foer, Remembering the Holocaust reveals the pivotal yet complicated role of place in each generation’s writing about the Holocaust. This book provides an insightful and nuanced investigation of the effect of the Holocaust upon families, from survivors of the genocide to members of the second and even third generations of families involved. By deploying an innovative combination of generational and literary study of Holocaust survivor families focussed on place, Remembering the Holocaust makes an important contribution to the field of Holocaust Studies that will be of interest to scholars and anyone interested in Holocaust remembrance.

**Planet Auschwitz** Brian E. Crim 2020-05-15 Planet Auschwitz explores the diverse ways in which the Holocaust influences and shapes science fiction and horror film and television by focusing on notable contributions from the last fifty years. The supernatural and extraterrestrial are rich and complex spaces with which to examine important Holocaust themes - trauma, guilt, grief, ideological fervor and perversion, industrialized killing, and the dangerous afterlife of Nazism after World War II. Planet Auschwitz explores why the Holocaust continues to set the standard for horror in the modern era and asks if the Holocaust is imaginable here on Earth, at least by those who perpetrated it, why not in a galaxy far, far away? The pervasive use of Holocaust imagery and plotlines in horror and science fiction reflects both our preoccupation with its enduring trauma and our persistent need to “work through” its many legacies. **Disciplining the Holocaust** Karyn Ball 2008-10-22 "Disciplining the Holocaust examines critics' efforts to defend a rigorous and morally appropriate image of the Holocaust. Rather than limiting herself to polemics about the "proper" approach to traumatic history, Karyn Ball explores recent trends in intellectual history that govern a contemporary ethics of scholarship about the Holocaust. She examines the scholarly reception of Goldhagen's Hitler's Willing Executioners, the debates culminating in Eisenman's Memorial to the Murdered Jews of Europe in Berlin, Lyotard's response to negations of testimony about the gas chambers, psychoanalytically informed frameworks for the critical study of traumatic history, and a conference on feminist approaches to the Holocaust and genocide. Ball's book bridges the gap between psychoanalysis and Foucault's understanding of disciplinary power in...
order to highlight the social implications of traumatic history."--BOOK

The Holocaust and the Henmaid's Tale Karen Davis 2005 "Brilliant, devastating in its analysis and hopeful in its premise." Carol J. Adams, author, The Sexual Politics of Meat "Compelling and convincing.... Not to think about, protest against, and learn from these twin atrocities one completed in the middle of the last century, the other continuing every day is to condone and support the fascist mentality that produced them. I thank Ms. Davis for writing this bold, brave book." Charles Patterson, author, Eternal Treblinka In a thoughtful and thought-provoking contribution to the study of animals and the Holocaust, Karen Davis makes the case that significant parallels can and must be drawn between the Holocaust and the institutionalized abuse of billions of animals in factory farms. Carefully setting forth the conditions that must be met when one instance of oppression is used metaphorically to illuminate another, Davis demonstrates the value of such comparisons in exploring the invisibility of the oppressed, historical and hidden suffering, the idea that some groups were made to serve others through suffering and sacrificial death, and other concepts that reveal powerful connections between animal and human experience as well as human traditions and tendencies of which we all should be aware."

Encrypting the Past Kirstin Gwyer 2014 Encrypting the Past puts forward the interpretative category of the first-generation German-Jewish Holocaust novel and examines its representational strategies. With reference to works by H.G. Adler, Jenny Aloni, Elisabeth Augustin, Erich Fried, and Wolfgang Hildesheimer, and a concluding section on W.G. Sebald, it shows how Holocaust literature was being written decades before postwar authors such as Sebald were credited with having found new ways of reflecting the unspeakable. It demonstrates that, before the theoretical debate over the fundamental representability of the Holocaust was even fully under way, first-generation authors were already translating un-narratable trauma into a literary strategy of un-narrating: a strategy of encrypting the Holocaust into the form and structure of their texts. The implications of treating these writers as a set, and their body of work as a hitherto unacknowledged category of Holocaust fiction, go well beyond drawing attention to a number of important but critically neglected authors. This study frames the analysis of first-generation narrative strategies in the broader debate on the ethics and aesthetics of Holocaust writing. In revealing how certain kinds of testimony have been privileged above others in international Holocaust studies, it raises questions of a more general nature concerning canon formation and our theoretical responses to the Holocaust. In considering foremost among these responses the theory of deconstruction and trauma theory, it finally invites a re-examination of the relationship between the (post-)modern and trauma.

**How German Is It** Walter Abish 1980-11-17 Ulrich Hargenau testifies against fellow members of a German terrorist group in order to save himself and his wife, Paula, and contemplates the nature of his German heritage. The question How German Is It underlies the conduct and actions of the characters in Walter Abish's novel, an icy panorama of contemporary Germany, in which the tradition of order and obedience, the patrimony of the saber and the castle on the Rhine, give way to the present, indiscriminate fascination with all things American. On his return from Paris to his home city of Würtenburg, Ulrich Hargenau, whose father was executed for his involvement in the 1944 plot against Hitler, is compelled to ask himself, "How German am I?"—as he compares his own recent attempt to save his life, and his wife Paula's, by testifying against fellow members of a terrorist group, with his father's selfless heroism. Through Ulrich—privileged, upper class—we confront the incongruities of the new democratic Germany, in particular the flourishing community of Brumholdstein, named after the country's greatest thinker, Brumhold, and built on the former site of a concentration camp. Paula's participation in the destruction of a police station; the State's cynical response to crush the terrorists; two attempts on Ulrich's life; the discovery in Brumholdstein of a mass grave of death camp inmates—all these, with subtle irony, are presented as pieces of a puzzle spelling out the turmoil of a society's endeavor to avoid the implications of its menacing heritage.
