The new edition of "Civilization" by S. N. Athar, published in 2013, includes updated material on cultural factors and themes such as the environment and gender. The author's engaging narrative is complemented by rich primary sources, offering a comprehensive view of Western civilization from ancient Athens to the 21st century. The book is ideal for students and teachers of Western history, providing a platform for exploring various critical approaches to important events and themes in Western history. It is a useful resource for anyone interested in the history of Western civilization.
