The Hidayah Burhan al-Dîn Al-Marghîbî 2016-12-18 The Hidayah has dominated the field of Islamic jurisprudence since the day it was written over 800 years ago. It has been the primary text used by Muslims jurists to issue authentic and reliable rulings on Islamic law according to the school of the scholars of al-Qadî ibn Iyâd, which was always famous for learning and in particular for its staunch adherence to the school of the people of the sunnah. The Hidayah was written in response to the works of the two most famous jurists of Qayrawân, who who regarded or good bad the religious innovations. 4. It is an indispensable reference for every Muslim or student of Islam who needs to research on Islamic rulings and Islamic devotions in light of the Islamic legal tradition according to the principles and criteria of Islamic jurisprudence. It is widely considered to be Abu Hamid al-Ghazali’s last book, this summary of his Sufi philosophy charts the pitfalls and obstacles to be overcome in order to enter the kingdom of heaven. Dictating his words to a group of his grandsons before his death, al-Ghazali presents a practical guide to mystical experience, weaving his own personal experiences throughout. The picket of the book is the rendering which reveals a book in a narrative descriptive style rather than in a didactic scholarly tone, making it breathtakingly accessible. So significant was the book’s authorship and so quickly it was recognized that its author became known as the “Young Malik” and his work became a foundational pillar of the madhâb of the Madinan School of Madinan and has endured for a millennium, in use to teach both absolute beginners as intended and as a resource for scholars. This edition presents the translation in parallel with the Arabic text, making its pedagogical value evident to students and scholars alike. The book was written to introduce a group of children to the essentials of Islamic jurisprudence without diluting the quality and substance of the information. The student is not offered a précis of pillars of Islamic jurisprudence, but rather a substantive introduction to the methodological foundations, the thinking of the madhâbs and the way in which each is welcomed in our digital library an online entry to it is set as public appropriately you can download it instantly. Barren Women Sara Verskin 2020-04-06 Barren Women is the first scholarly book to explore the ramifications of being infertile in the medieval Arab-Islamic world. Through an examination of legal texts, medical treatises, and works of religious preaching, Sara Verskin illuminates how attitudes toward mixed-gender interactions; legal theories pertaining to marriage, divorce, and inheritance; and scientific theories of reproduction contoured the intellectual and social landscape infertile women had to navigate. In so doing, she highlights underappreciated vulnerabilities and opportunities for women’s autonomy within the system of Islamic family law, and explores the diverse marketplace of medical ideas in the medieval world and the perceived connection between women’s health practices and religious heterodoxy. Featuring copious translations of primary sources and minimal theoretical jargon, Barren Women provides a multidimensional perspective on the experience of infertility, while also enhancing our understanding of institutions and modes of thought which played significant roles in shaping women’s lives more broadly. This monograph has been awarded the annual BRAS - De Gier Brey Prize in the Study of Islam and the Muslim World.

Mukhtasar Al Quduri - Book of Commercial Transactions Al Quduri 2018-01-24

The intention in compiling this brief commentary on the section of commercial law (Kitab Al Buyu) from the Mukhtasar Al Quduri is to assist the layman and the early learner in understanding the various fiqhi terminologies and concepts in the manner laid down by the classical authors on Hanafi jurisprudence. A firm grasp of these fundamental concepts in the initial years of study will lay a solid foundation for a student to later build upon the more detailed books and also when applying his to contemporary issues of commercial law. The compiling author has attempted to convey the explanation of the masail and indicate the background reasoning in a simple manner without excessive reference to technical jurisprudential terminology, generally used by Arabic commentators, leaving this for the student to discover directly from these commentaries themselves or in later studies. This translation of Mukhtasar Minhaj Al Qudusi is an abbreviated version of Ibn Al jauwiy's summary of Imam Abu Hamid Al-Ghazali's well known book, Iyya Ulum Ad-Din. In Imam Al Ghazalis Iyya Ulum Ad-Din (The Revitalization of Sciences of Religion) apparently has some defects that only scholars can realize, such as the narrations which have been traced back to the prophet while they are fabricated or inauthentic. Therefore, Imam Ibn Al jauwiyy compiled this book free of those defects, while retaining the benefits on the original book. In this book the author relied only on authentic and famous narrations, and removed from or added to the original book what he seemed necessary. This book is divided into four chapters: Chapter One: Acts of Worship;Chapter Two: Customs;Chapter Three: Destructive Flaws;Chapter Four: Means of SalvationEach one of these four chapters consists of numerous titles and sub-titles.
